

### (5) Merging section

At a merging section, installation shall begin 10 m past the end of the merge, in consideration of motorbikes (less than 50 cc) and other light vehicles.

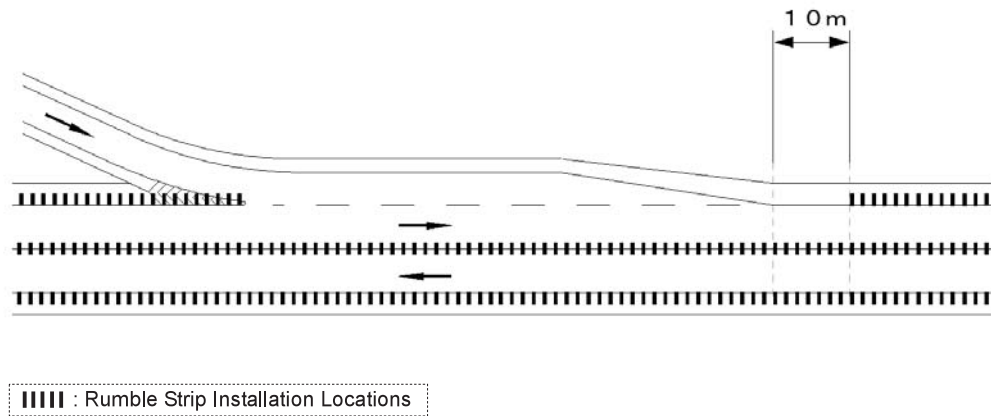

Figure 4-6: Example of installation at a merge section

### (6) Intersection with stop sign

Installation at an intersection with a stop sign shall be the same as for a signalized intersection.

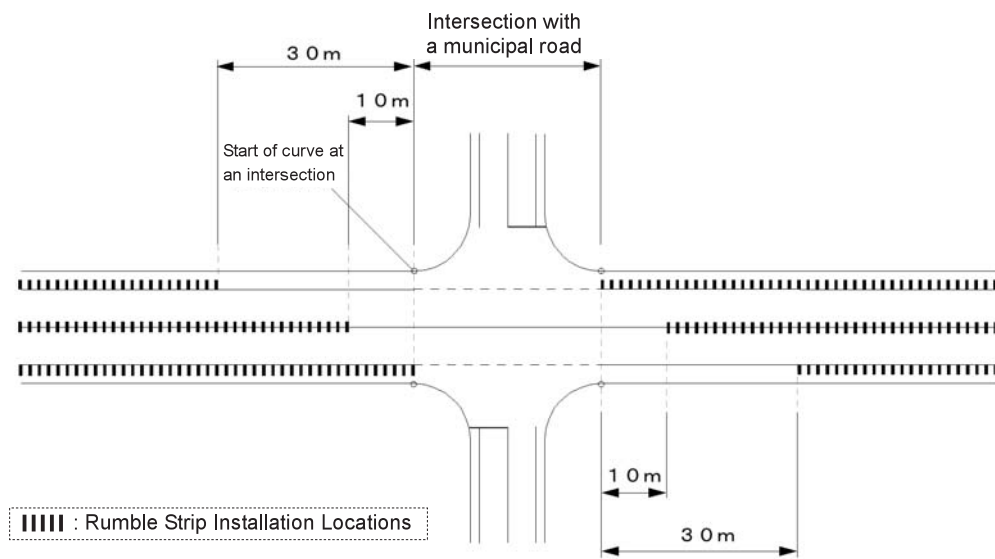

Figure 4-7: Example of installation at an intersection with a stop sign
